

Who We Are

The Open Door program believes that each individual has a right to be free from sexual exploitation, the right to supportive and free services that help them recover from trauma, the right to access and discontinue receiving our services at any time, and the right to grow into independent individuals who determine and make their own choices.

We believe in engaging community members in bringing awareness on the issue of sex trafficking in our communities to reduce stigma towards victims and survivors.

We are a team committed to assisting participants in meeting their basic needs, to reunifying survivors with their families, when applicable, advocating on their behalf, to helping survivors build a foundation for a solid future, and to fostering growth in each of our participants.

No Fail Policy

Participants benefit from time spent in our program, regardless of how long. The program offers a strong No Fail Policy, meaning it is impossible for any participant to fail at this program. Support will always be available when they choose to access it.

Our Mission and Vision

To provide unique trauma informed supportive services to clients that will assist them in meeting their basic needs, provide advocacy on their behalf, empower survivors to build a foundation for a solid future, foster individual growth and when applicable reunify families.

Our Approach

We have an Open-Door Policy that means “no matter the circumstances, we will meet the client where they are at”. No client will be turned away from or denied access to re-enter our program.

“ We meet each person where they are, not where we think they should be ”
